

US Retail Supply Analytic Report

EXECUTIVE SUMMARY

The business generated \$2.30M in revenue from 9,994 orders, serving 793 customers across 49 states, with a profit of \$286.40K and an overall profit margin of 12.47%.

Consumer customers contributed the largest share of sales, while the West region accounted for the highest quantity sold. Demand was concentrated in cities such as New York City and Los Angeles, with California leading all states in total quantity sold.

Monthly sales gradually declined toward February, suggesting possible seasonality or weaker customer demand after the holiday period.

Key Insights

Revenue reached \$2.30M.

Profit margin remained healthy at 12.47%.

California was the strongest-performing state.

Consumer segment generated the largest business volume.

Sales volumes declined after November and December.

Business Recommendation

Increase inventory before peak months.

Launch promotional campaigns during slower months.

Focus customer retention in high-performing states.

Improve marketing in lower-performing regions.

CATEGORY REPORT

Office Supplies dominated total quantity sold, making it the company's strongest product category.

However, not every sub-category performed equally. Products such as Binders and Paper drove large sales volumes, while Copiers, Machines, and Envelopes recorded the lowest quantities.

Although Technology generated the highest profit, Furniture produced considerably less profit, indicating weaker profitability.

Key Insights

Office Supplies is the highest-selling category.

Technology contributes the highest profits.

Copiers and Machines underperform.

High sales do not always translate into high profit.

Business Recommendation

Continue investing in Technology products.

Review pricing strategy for low-profit categories.

Bundle slow-moving products with fast sellers.

Reduce inventory for consistently underperforming products.

Total Customer by Month

Profit by Month

Customer activity peaked during September through November, followed by a steady decline in revenue, profit, and customer orders during the early months of the following year.

This trend suggests strong seasonal purchasing behaviour, with most customers buying before year-end.

Key Insights

Highest customer activity occurred in late Q3 and Q4.

Revenue and profit declined after December.

Order volume follows a similar seasonal pattern.

Business Recommendation

Increase inventory before peak months.

Run customer loyalty campaigns in January and February.

Introduce seasonal discounts during low-demand periods.

Improve forecasting using historical monthly trends.

Conclusion

Sales performance varied significantly among retail representatives. Anna Andreadi generated the highest profit while also recording the highest quantity sold, demonstrating exceptional sales performance. Customer orders were concentrated among a small group of repeat customers, indicating that a relatively small customer base contributes disproportionately to total sales.

Key Insights

Anna Andreadi is the top-performing salesperson. Performance differences exist across sales representatives. Top customers account for a significant share of total orders.

Business Recommendation

Reward top-performing sales representatives. Coach lower-performing representatives using top performers' sales strategies. Develop loyalty programmes for repeat customers. Identify opportunities to convert occasional buyers into repeat customers.

Total Orders by Customer(Top 5)

Overall Business Conclusion

Overall, the company is financially healthy, generating \$2.30M in revenue with a positive 12.47% profit margin. Performance is driven primarily by the Consumer segment, Office Supplies category, and the West region.

Despite strong overall performance, declining monthly sales after the holiday season and weak-performing product categories present opportunities for improvement.

By strengthening customer retention, improving low-performing product lines, optimising inventory planning, and replicating the practices of top sales representatives, the company can improve both profitability and long-term growth.
